EDUCATION

Vellore Institute of Technology, Bhopal, India

2022 - 2026

Bachelor of Technology (Computer Science Engineering)

CGPA: 8.60

EXPERIENCE

Product Intern – Wealth Management | OneInsure.Money

Jan 2026 - Present

Robinhood Capital Services Pvt. Ltd.

- Owned **end to end product analysis** across onboarding, KYC, and execution by mapping vendor flows, conducting market research, and designing Figma prototypes for dashboard and NFO journeys.
- Built and analyzed a **Power BI Revenue Analytics dashboard** to track key KPIs and drive data-led prioritization across multiple initiatives.

Data Visualization Intern

Dec 2023 - Feb 2024

Excelerate

- Conducted EDA** on 15,000+ records from multiple sources using Python, Pandas, Tableau, and Excel, delivering 4 **automated dashboards** that improved **data-driven decisions by 35%**.
- Led team discussions and translated analytical insights into actionable dashboards, presenting to non-technical stakeholders to drive data-driven decisions.

PRODUCT AND UX WORK

Amazon AI Review Summary — UX Teardown and Redesign Prototype

- Evaluated the experience using Nielsen's heuristics, diagnosed trust and comprehension gaps, and redesigned the flow with a working prototype.

ChatGPT Voice Input — Product Case Study and Prototype

- Led user research and prototyping, defining problem statements and success metrics to improve adoption.

Wireframing, PRDs and KPI Design

- Created wireframes, PRDs, and metric frameworks across multiple projects; designed automation-aware workflows

ACHIEVEMENTS

Top PM Fellow | Product Manager Fellowship

Jan 2026

Nextleap

- Developed strong product management fundamentals through hands-on case work, product teardowns, and execution-focused learning.

Spot-Prize Winner of GenAI Hackathon | Advent of Multimodal AI Hack-24

Dec 2024

Intel Liftoff for AI Startups

- Developed a multimodal AI solution using PHI3 (for refined, engaging text) and FLUX (for cohesive visuals), integrating PHI3 with PIL and structured prompting to seamlessly generate branded text-image content.

Co-Lead (Student Developer Club and Google Developer Student Club)

Feb 2024 - Dec 2024

Design Teams | VIT Bhopal

PROJECTS

WALL-Echo: Intelligent AI Assistant MVP | MERN + AI Project | [Live Demo](#)

- Built a natural language chat assistant** based on Wall-E's persona using a JWT-secured MERN stack with Tailwind, and **integrated Google Gemini** with prompt engineering for contextual, personality-driven responses.
- Developed a **unique multi-user collaborative chat system** with a **structured collection** of recent individual and group chats for seamless retrieval.

HealthVerse: Mental Wellness Platform MVP | MERN + AI Project | [Live Demo](#)

- Built a secure MERN-based wellness platform with an AI chatbot (Google Gemini), featuring context-aware healthcare conversations, mood tracking, and interactive mental wellness tools with scalable architecture.

SKILLS AND CERTIFICATIONS

Product Management: Agile, Scrum, MVP Development, PRDs, KPIs, Wireframing, User Research, Success Metrics
Tools: Git/GitHub, Postman, Figma, Lovable, Balsamiq, Notion | **Tech Stack:** React, Node.js, MongoDB, MySQL, Python | **Data:** Tableau, EDA, Analytics | **AI/ML:** LLMs, Prompt Eng, API Integration | **Certifications:** Cloud Computing (NPTEL, Top 5%), Google Networking, Marketing Analytics (NPTEL), Data Science with Python (iamneo)
