SUMMARY

Aspiring Product Manager with experience in fintech, data analytics, and AI-powered full-stack product development. Skilled in user and market research, PRDs, wireframing, KPI definition, and funnel analysis. Proven ability to identify drop-offs and drive data-informed improvements in conversion and retention. Building automation workflows using n8n, with a strong foundation in MERN, Python, LLMs, and product analytics.

EDUCATION

Vellore Institute of Technology, Bhopal, India 2022 - 2026
Bachelor of Technology (Computer Science Engineering) CGPA: 8.60

EXPERIENCE

Product Management Intern – Wealth Management | OneInsure.Money Jan 2026 - Mar 2026
Robinhood Capital Services Pvt. Ltd.

- Owned analysis of onboarding, KYC, & execution funnels; identified 5+ drop-offs & proposed solutions projected to improve completion by **12–18%**; Designed **Account Aggregation (AA)** user journeys and conducted market research across 5+ financial planning platforms to identify feature gaps and inform product decisions.
- Built **brokerage & sub-broker analytics** (CAMS/Karvy) uncovering 60–70% revenue concentration; led vendor research, **designed NFO** mobile app screen(UX/UI), & authored a PRD for an RM Copilot to improve retention.

Data Visualization Intern Dec 2023 - Feb 2024
Excelerate

- Conducted EDA** on 15,000+ records from multiple sources using Python, Pandas, Tableau, and Excel, delivering 4 **automated dashboards** that improved **data-driven decisions by 35%**.
- Led a cross-functional team of 5+** to operationalize analytical insights into dashboards; **partnered with 3+ stakeholders** and translated findings for non-technical audiences to drive data-informed decisions.

PROJECTS

Amazon AI Review Summary — UX Teardown and Redesign Prototype
• Evaluated the experience using Nielsen’s heuristics, diagnosed trust and comprehension gaps, and redesigned the flow.

ChatGPT Voice Input — Product Case Study and Prototype
• Led user research and prototyping, defining problem statements and success metrics to improve adoption.

WALL-Echo: Intelligent AI Assistant MVP | MERN + AI Project | [Live Demo Link](#)
• **Built a natural language chat assistant** based on Wall-E’s persona using a JWT-secured MERN stack with Tailwind, and **integrated Google Gemini** with prompt engineering for contextual, personality-driven responses.
• Developed a **unique multi-user collaborative chat system** with structured chat storage for seamless retrieval.

HealthVerse: Mental Wellness Platform MVP | MERN + AI Project | [Live Demo](#)
• Built a secure MERN-based wellness platform with an AI chatbot (Google Gemini), featuring context-aware healthcare conversations, mood tracking, and interactive mental wellness tools with scalable architecture.

ACHIEVEMENTS

Top PM Fellow | Product Manager Fellowship Jan 2026
Nextleap

- Completed structured PM training covering product teardowns, case studies, roadmap planning, and go-to-market frameworks across SaaS, fintech, and consumer domains.

Spot-Prize Winner of GenAI Hackathon | Advent of Multimodal AI Hack-24 Dec 2024
Intel Liftoff for AI Startups

- Developed a multimodal AI solution using PHI3 (for refined, engaging text) and FLUX (for cohesive visuals), integrating PHI3 with PIL and structured prompting to seamlessly generate branded text-image content.

SKILLS

Product & Strategy : PRDs, Product Roadmapping, Product lifecycle, KPI Definition, Funnel Analysis, User Research, User Journey Mapping, Wireframing, MVP Development, Agile/Scrum, UX Research, Competitive Analysis, A/B Testing
Design & Prototyping: Figma, Balsamiq, Lovable, Canva,
Technical & Tools: API Integration, SQL, Python, MERN Stack (React, Node.js, MongoDB), LLMs, Prompt Engineering, Notion, Postman, Jira, Git/GitHub, n8n, Zapier, Make
